

# Resource

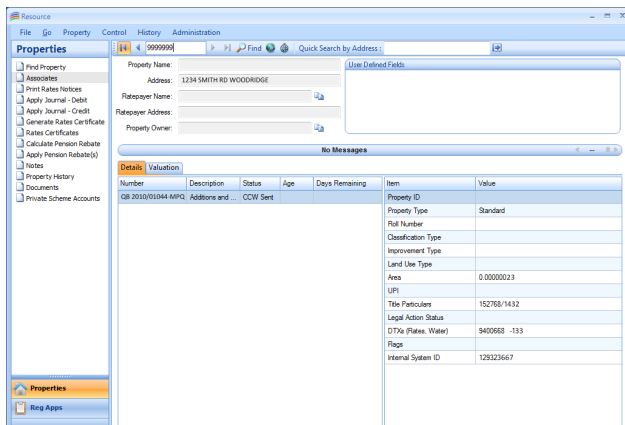

## At last, an integrated, cost effective business solution for water authorities built on the Microsoft.Net framework.

'Resource' offers water authorities an integrated finance and administrative business system based on the Microsoft platform. 'Low risk—Big future'.

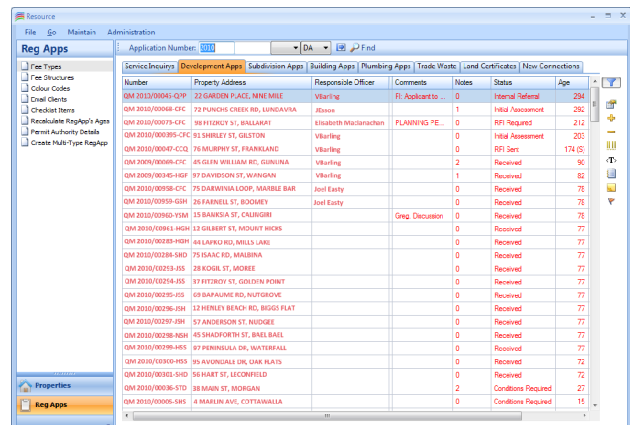

Information Outlook Pty Ltd, a leading provider of innovative business software systems, has extensively researched water authorities' needs and worked closely with local government for many years. 'Resource' is the result of that commitment.

'Resource', built for Microsoft Dynamics™ includes the following modules:

- Advanced Budgeting and Workflow
- General Ledger
- Grant Funds/Management
- Projects
- Jobs
- Inventory
- Accounts Payable
- Accounts Receivable
- Fixed Assets
- Human Resources & OHS
- Integrated Payroll
- Electronic Web-based Remote Timesheet Entry
- Property Information
- Receipting
- Regulatory Applications:-
  - Development Applications
  - Subdivisions Applications
  - Building Applications
  - Plumbing Applications
  - Trade Waste
  - Land Certificates
  - New Connections
